## PROJECTS

### BUILDSOURCE – Bridging Buyers And Suppliers

Home construction and renovation are often delayed and costly due to scattered resources, unclear pricing, and poor project coordination. A single digital platform is needed to streamline the process, ensuring simplicity, reliability, affordability, and efficiency.

- Create a user-friendly online platform for the construction and renovation industry.
- Bridge the gap between suppliers and buyers of construction materials.
- Centralize the entire construction and renovation process in one digital platform.
- Connect users with trusted suppliers, verified experts, and skilled workers.
- Ensure transparency, efficiency, and reliability throughout the project lifecycle.

### ATTIRE

Shoppers often face difficulty finding trendy, high-quality clothing online due to scattered options, inconsistent sizing, and poor user experiences. There is a need for a centralized, user-friendly platform that offers a wide range of fashionable apparel with reliable sizing, easy navigation, and a seamless shopping experience.

- Create a user-friendly and stylish clothing website.
- Offer trendy and quality apparel for all preferences.
- Ensure accurate sizing and easy navigation.
- Provide smooth browsing and secure checkout.
- Build trust with reliable service and clear policies.
